International Journal of Fracture

CONTENTS OF VOLUME 42 (1990)

NON-LINEAR FRACTURE

Damage — **Volume 42, No. 1, January 1990**

R.M. McMEEKING and C.L. HOM	Finite element analysis of void growth in elastic-plastic materials	1
A. NEEDLEMAN	An analysis of decohesion along an imperfect interface	21
S. SURESH	Mechanics and micromechanisms of fatigue crack growth in brittle solids	41
M. PARVIN and W.G. KNAUSS	Damage induced constitutive response of a thermoplastic related to composites and adhesive bonding	57
D. KRAJCINOVIC and A. STOJIMIROVIC	Deformation processes in semi-brittle polycrystalline ceramics	73
J.E. LEMAITRE	Micro-mechanics of crack initiation	87

Interfaces and Creep — **Volume 42, No. 2, February 1990**

C.F. SHIH and R.J. ASARO	Elastic–plastic and asymptotic fields of interface cracks	101
M. ORTIZ and J.A. BLUME	Effect of decohesion and sliding on bimaterial crack-tip fields	117
E. ZYWICZ and D.M. PARKS	Elastic–plastic analysis of frictionless contact at interfacial crack tips	129
V. TVERGAARD	Effect of microstructure degradation on creep crack growth	145
J.L. BASSANI and D.E. HAWK	Influence of damage on crack-tip fields under small-scale-creep conditions	157
H. RIEDEL	Creep crack growth under small-scale-creep conditions	173
R.A. SCHAPERY	On some path independent integrals and their use in fracture of nonlinear viscoelastic media	189

Time Dependence **Volume 42, No. 3, March 1990**

A.T. ZEHNDER, A.J. ROSAKIS, and S. KRISHNASWAMY — Dynamic measurement of the J integral in ductile metals: comparison of experimental and numerical techniques 209

R.J. FIELDS and R. deWIT — Plastic zone formation around an arresting crack 231

M.F. KANNINEN, S.J. HUDAK, Jr., H.R. COUQUE, R.J. DEXTER and P.E. O'DONOGHUE — Viscoplastic-dynamic crack propagation: experimental and analysis research for crack arrest applications in engineering structures 239

L.B. FREUND and Y.J. LEE — Observations on high strain rate crack growth based on a strip yield model 261

K.B. BROBERG — Computer demonstration of crack growth 277

S. NEMAT-NASSER and M. OBATA — Some basic issues in dynamic crack growth in elastic–plastic solids 287

Continuum Plasticity **Volume 42, No. 4, April 1990**

J.R. RICE, D.E. HAWK and R.J. ASARO — Crack tip fields in ductile crystals 301

K.-C. HWANG and X.-F. LUO — Perturbation solution for near-tip fields of cracks growing in elastic perfectly-plastic compressible materials 323

G. HARLIN and J.R. WILLIS — The influence of crack size on the fracture behaviour of short cracks 341

F.A. McCLINTOCK — Reduced crack growth ductility due to asymmetric configurations 357

B.C. LIU and F.P. CHIANG — Crack tip parameters and elastic–plastic fracture of metals 371

H. MIYAMOTO, M. KIKUCHI and T. KAWAZOE — A study on the ductile fracture of Al-alloys 7075 and 2017 389

AUTHOR INDEX, VOL. 42 (1990)

Asaro, R.J., 101, 301

International Journal of Fracture

CONTENTS OF VOLUME 42 (1989)

Vol. 42, No. 1, January 1990

	Meetings calendar	R2
C.R. JOE and B.H. KIM	On the essential work of fracture	R3
LIU BING-JI	Fatigue life formula of surface defects leading to cracks	R9
M. DAGBASI and C.E. TURNER	Serendipity and the three point bend test	R15
A.K. HELLIER, M.B. McGIRR, D.J.H. CORDEROY and L.A. KUTAJCZYK	Fatigue of head-hardened rail steel under mode III loading	R19

Vol. 42, No. 2, February 1990

	Meetings calendar	R26
L.P. POOK and D.G. CRAWFORD	Stress intensity factors for twist cracks	R27
N.I. IOAKIMIDIS	Hypersingular Cauchy-type integrals in crack problems with hypersingular stress fields	R33
SUN JUN, DENG ZENGJIE, LI ZHONGHUA, and TU MINGJING	Fracture strength of spheroidal carbide particle	R39
HAO TIAN-HU	The theory of formation of a main crack in a cracked brittle-elastic body under compression	R43

Vol. 42, No. 3, March 1990

	Meetings calendar	R48
G.H. LI and X.-J. WU	Temperature dependence of deformation and fracture for a low alloy Mn-steel	R49
LIU YI	An analysis of plastic displacement of SE(B) specimen for power law hardening materials	R53
G. HEDNER	Study of dynamic crack growth by shear strain measurements	R57
C.R. CHIANG	Evaluation of the stress intensity factors from solutions of the corresponding notch problems	R61

Vol. 42, No. 4, April 1990

	Meetings calendar	R66
D. SWENSON and Q. CAO	Finite element analysis of a crack approaching an interface between dissimilar elastic materials	R67
N.I. IOAKIMIDIS	Application of Betti's reciprocal work theorem to the location of cracks in three-dimensional elasticity	R75
